

MPC CPD COMPLIANCE & EDUCATION PLATFORM

TURN-KEY ONLINE CPD COMPLIANCE AND EDUCATION SOLUTION

Overview on MPC

Medical Practice Consulting (MPC) (www.mpc.healthcare) is an online CPD Compliance and Education Platform for medical professionals endorsed by the South African Medical Association (SAMA). The healthcare specific platform provides healthcare professionals and industry service providers with the latest tools, resources and leading compliance features to effectively manage their professional compliance requirements as set out by the Allied Health Professions Council of South Africa (AHPCSA).

Partnerships and Credentials

PSS is a subsidiary of The Foundation for Professional Development (registered with the Department of Higher Education and Training (DHET) as a Private Higher Education Institution (PHEI)) and a group company of the South African Medical Association (SAMA).

As a proud Microsoft partner, we are innovatively implementing leading Microsoft solutions into our EdTech platforms and Data Reporting Warehouse.

Online Medical Education

The MPC Education System provides healthcare professionals and content service providers with an industry specific online training platform to host and complete a wide range of CPD accredited and risk mitigating training material. The platforms are also geared to accommodate the sponsorship of courses to specific target audiences within healthcare via scholarship by 3rd party organisations to promote learning within specific fields or specialities.

Our systems enable healthcare professionals to access and complete online course material from leading content providers, both local and international, as part of their CPD requirements while offering service providers with a secure platform that integrates all aspects of hosting and managing e-learning training material.

Online Learning Portfolio: CPD Manager

The MPC Medical Education system enables healthcare professionals to complete medical education courses online without having to leave the comfort of his/her own home or practice.

The MPC Medical Education system is built around an Integrated Learning Portfolio that provide medical professionals with the opportunity to consolidate and manage all their CME/CPD certificates within a secure online environment in the form of a **CPD Manager**. Our CPD Manager has assisted and empowered more than 41,000 healthcare professionals in managing and track their professional compliance requirements across Africa and internationally.

All certificates issued by the MPC system and solutions are directly issued into the individual online learning portfolios of the healthcare professionals. This enables individuals to manage all types of CPD training (Online Courses, Face-to-Face Workshops and Formal Qualifications) within a secure online learning portfolio at no additional cost.

The system can also accommodate the upload of external certificates achieved by registered members. Healthcare professionals can keep their

CPD Manager up to date by manually uploading any course, workshop or conference certificates onto the learning portfolios, ready to be submitted directly to the AHPCSA should their CPD activities be audited.

Benefits to Medical Professionals include:

Integration with all MPC Medical Compliance and Education solutions

Secure Storage of professional certificates with a secure and industry specific platform

Upload functionality available to registered members for external certificates achieved

Calculating and keep track of the CPD Status for healthcare professionals

Functionality that enable electronic CPD Audit Submissions directly to the AHPCSA
